This list was obtained from the New Mexico Department of Transportation website and is updated periodically.

### **Affidavit for Ignition Interlock License**

You will need to complete the Affidavit for Ignition Interlock License (*please make sure that you sign this Affidavit before a Notary Public*) and take the **original** Affidavit containing your notarized signature to the Motor Vehicle Division. Please be prepared to pay \$53.00 (*or more*), a processing fee for the Ignition Interlock License.

- \* **Please note that prior to going to the Motor Vehicle Division, you will need to obtain an Ignition Interlock device and have it installed in any vehicle(s) that you intend to operate. Once the device is installed in your vehicle, the company that you choose to install the device will provide you with some sort of lease agreement/contract and/or certification document indicating that the device was installed in your vehicle. Additionally, you will need to provide proof of automobile insurance. If you do not have any of these documents, the Motor Vehicle Division may refuse or deny your request for an Ignition Interlock License until you have met their qualifications.** \*
